WHO IS DOTM?

Born on January 19, 2001, in Etawah, UP, Dev Pratap Singh Rana, aka DOTM (Devil On The Mic), emerged from the streets of Delhi's hip-hop scene with a vision to redefine sound.

Since his debut in July 2023, DOTM has embodied a dual persona—the soft, emotive depth of DEV and the dark, hard-hitting intensity of DOTM—seamlessly shifting between the two.

Exploring genres like Trap, Pop, Drill, Indie, and Club music, DOTM crafts compositions that break conventions and carve a unique space in the industry.

Finding Peace

Finding Peace is a deeply personal album that treats life as a puzzle, with each of its **12 tracks** representing a different piece of DOTM's journey. The missing piece in the album's artwork symbolizes "forever"—an idea that does not exist, reinforcing the theme that everything in life is temporary.

Finding Peace

DOTM

The visual for **Finding Peace** reinforces its core concept—life as a puzzle with missing pieces. The released tracks — **Selfish Log**, **No Blessings**, **Badside**, and **Us Bhai Us** — each represent different themes like egocentric society, disloyalty, friendship, and adulthood respectively.
